Where are the orphans in this picture ?

Fall 2014

Dear Friend and Partner of CAIRD,

To answer the above question: there are none! Many of the boys in the picture above were orphans. Today they have a father and mother! That is the miracle of Father's House—orphans become loved children as part of a family.

At the beginning of September, Father's House Romania had the joy of hosting a family camp. With the help of our friends and supporters, each of the FH families in Romania was able to participate. Many of them have never been on a holiday. It was a short break from the kitchen and the many pressures that daily life holds. There were special teaching and training sessions for the fathers, mothers and children. The fathers played soccer with their sons (some pictured above). Mothers shared special time with their daughters. The children laughed and together with their families celebrated God's goodness and love.

On behalf of the many children being helped in Romania and South Africa, thank you for your support and partnership.

Father's House Romania: Next Generation Pharmacist

Some time ago we shared with you that Anca, a young woman who grew up in Father's House Romania graduated from university as a pharmacist. She is now mentoring Alexandra (pictured above to the right), who has also grown up in a Father's House family. Alexandra has finished high school and hopes to go on to study pharmacy, following in Anca's footsteps.
